minepoint

PROMOTER'S GUIDE

About Us

MinePoint collaborates with leading service providers to offer reliable Bitcoin mining infrastructure. We have simplified access to high-performance mining equipment for individuals and companies, ensuring stable income.

With advanced infrastructure and our expertise, we launched cloud miners that make mining accessible, efficient, and profitable for everyone — regardless of technical knowledge or financial capacity.

Our trusted partners provide MinePoint with reliable data center infrastructure for cloud miners. All partners have passed our verification process and utilize powerful equipment, ensuring stability and efficiency in mining.

Referral Program & Cashback

How the Referral Program Works?   3-Level Reward System

You receive a percentage of the purchases made by the users you invited:

- 5% from purchases of 1st-level referrals (users directly invited by you)
- 2% from purchases of 2nd-level referrals (users invited by your referrals)
- 1% from purchases of 3rd-level referrals (users invited by second-level referrals)

Cashback for Your Referrals:

Every user you invite receives a 5% cashback on their first miner purchase if they enter your referral code in the special field during payment.

Special input field for referral code

Referral program

Invitation	Rewards

Invite friends

Friends will receive **5% cashback** for the first miner purchase. And you will receive **5% royalty** from all their purchases. Additionally:

- 2% from purchases of level 2 friends (friends of your friends)
- 1% from purchases of level 3 friends (friends of your friends at the next level)

Bounty Program

The bounty program is an effective way to attract users and increase engagement through task completion. The program mechanics are as follows:

1. Tasks and Stars
   - Users complete promotional tasks (such as subscriptions, reposts, registrations, etc.).
   - For completing these tasks, they earn stars, contributing to their activity in the system.
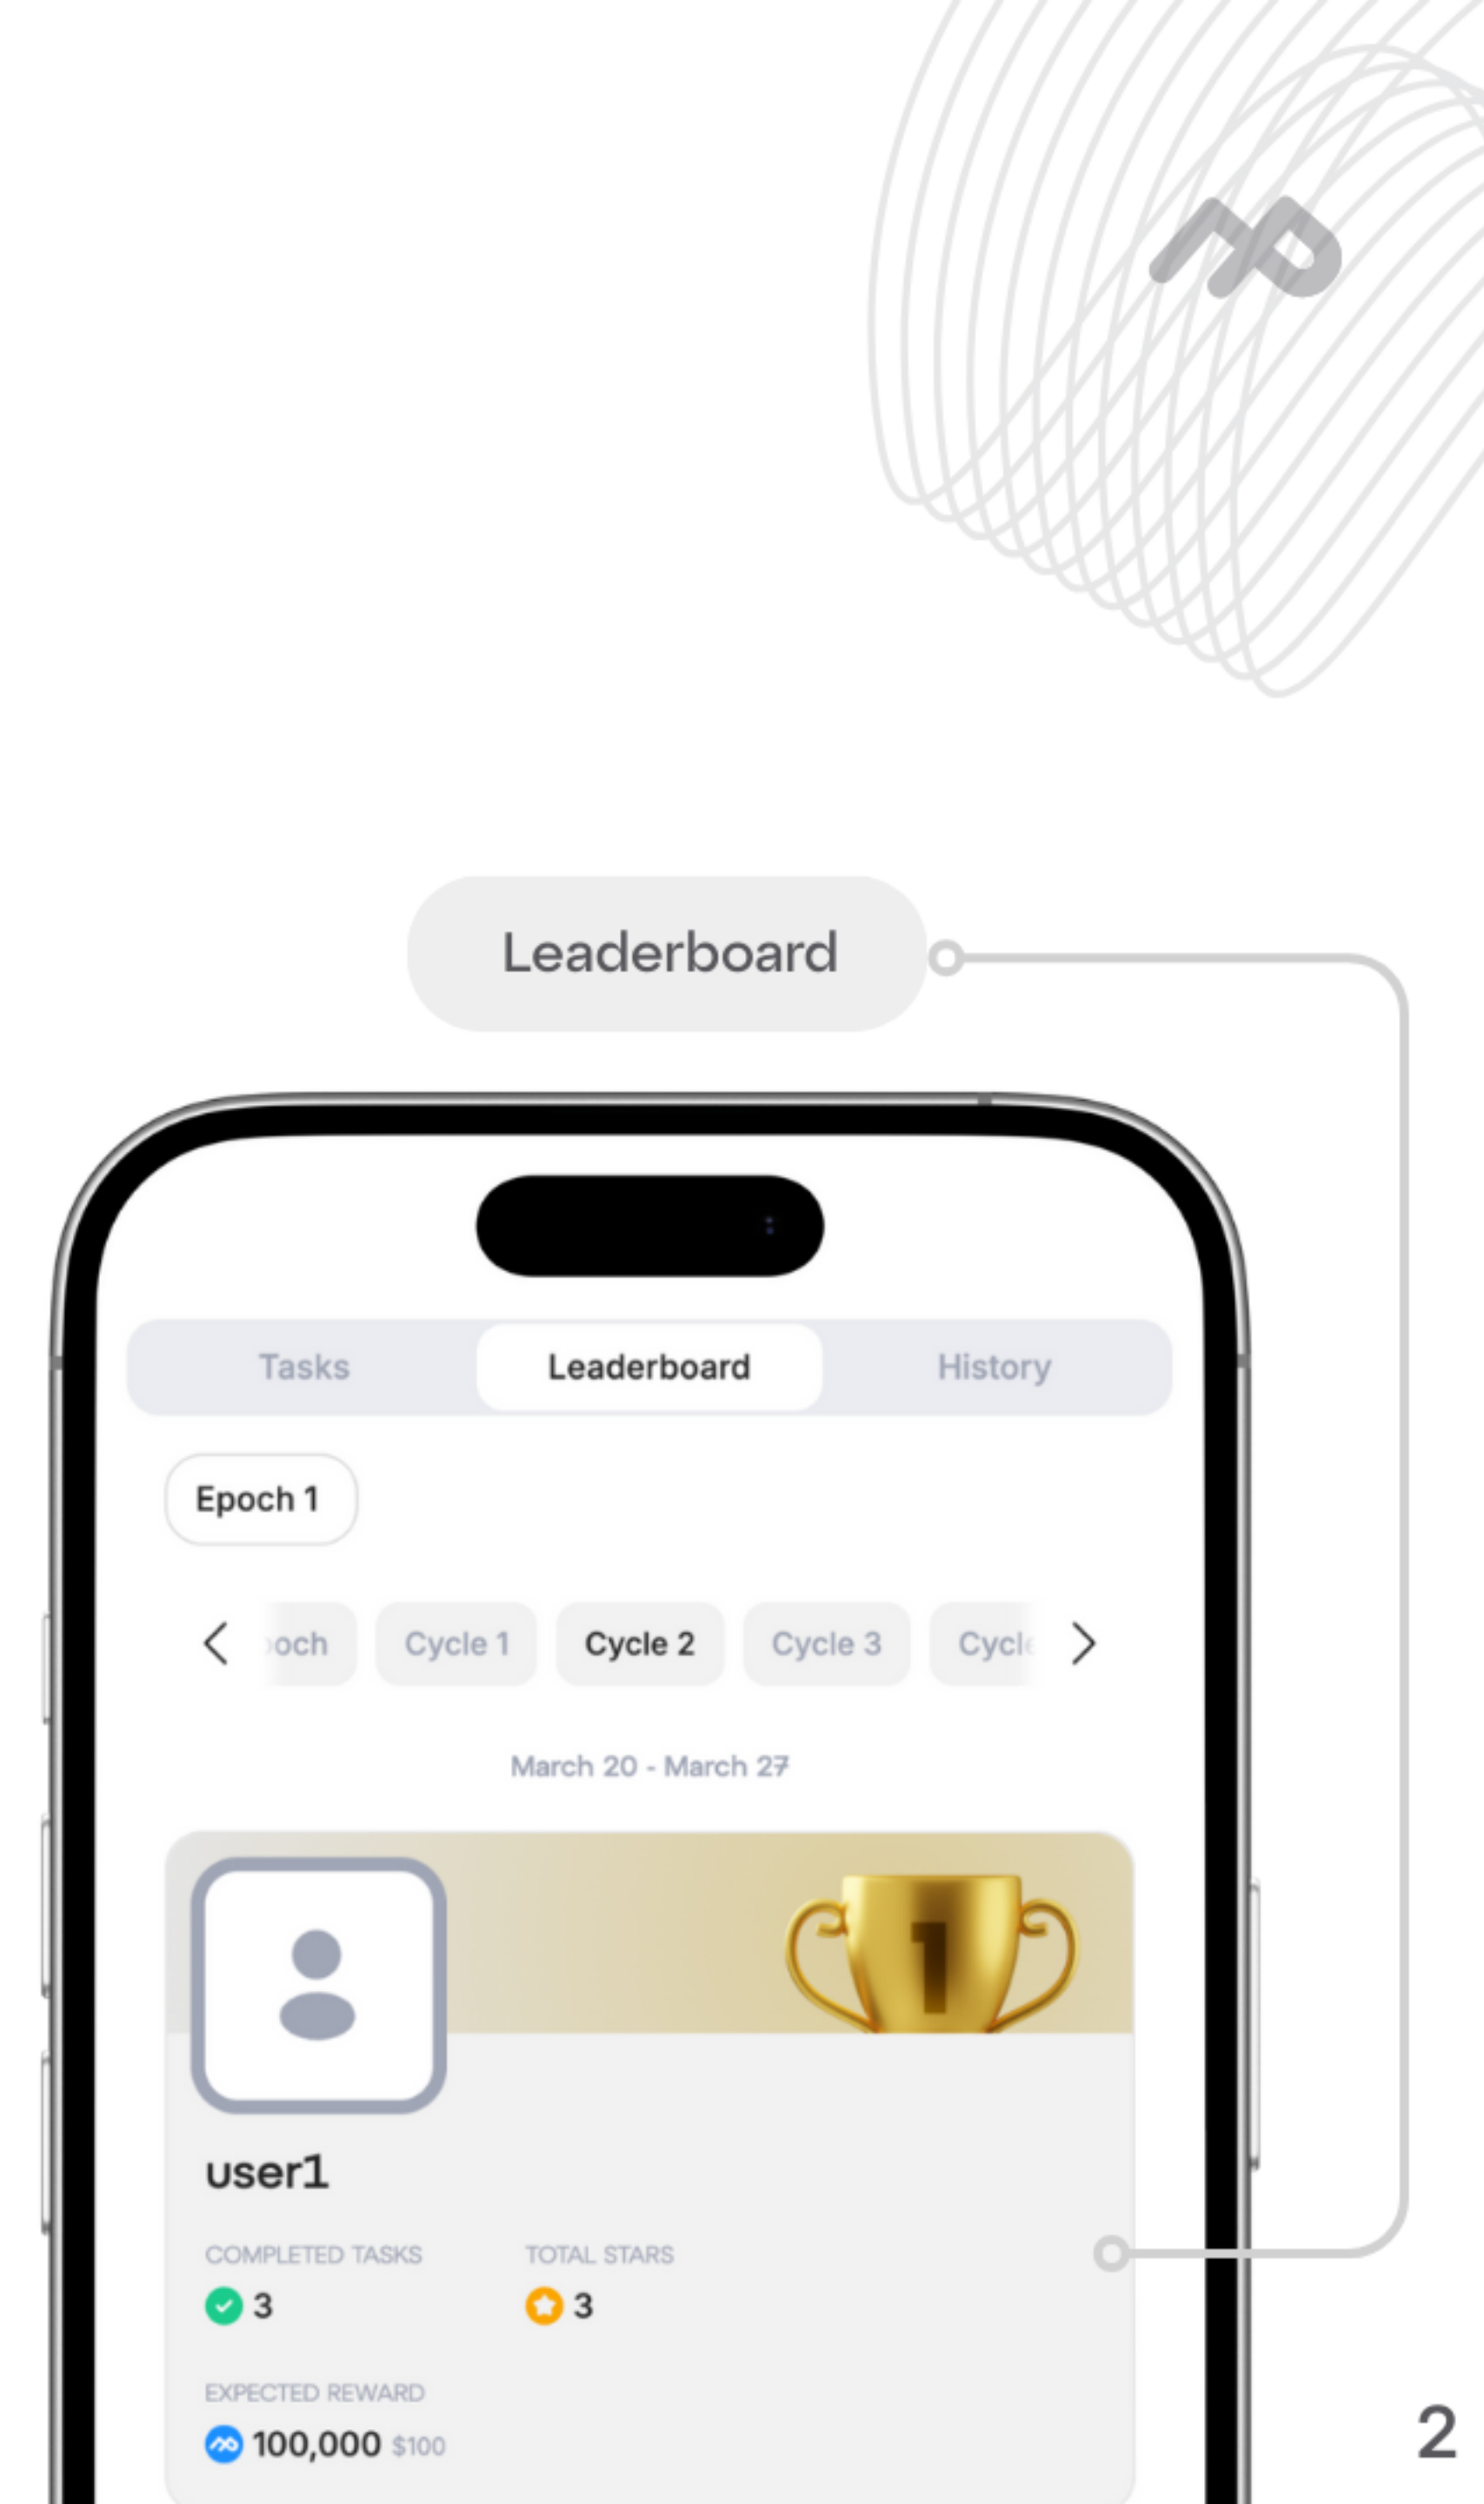

2. Cycles and Epochs
   - The program consists of 10 cycles within one epoch.
   - In each cycle, users are given a new set of tasks.
   - The more tasks completed, the higher the reward.

3. Reward Growth
   - Rewards increase with each cycle based on overall activity.
   - This motivates users to stay engaged throughout the entire epoch.
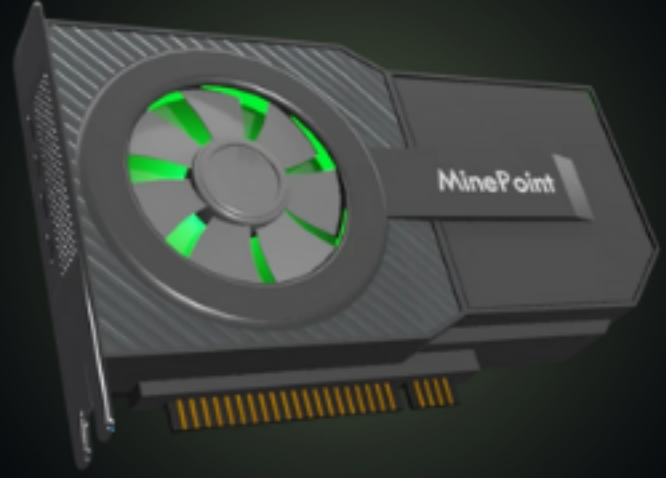

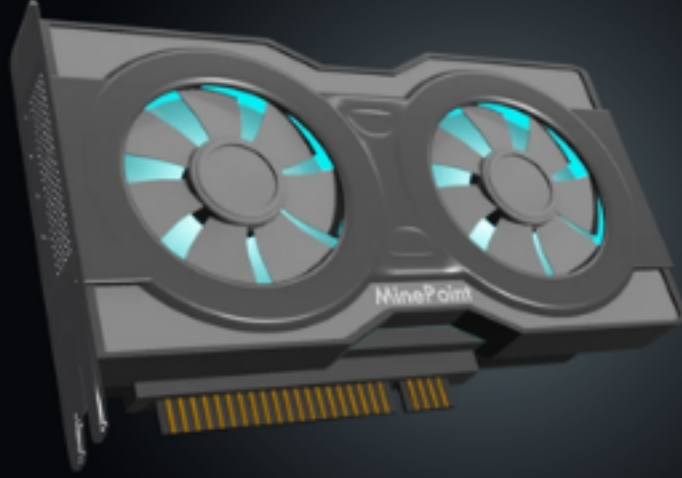

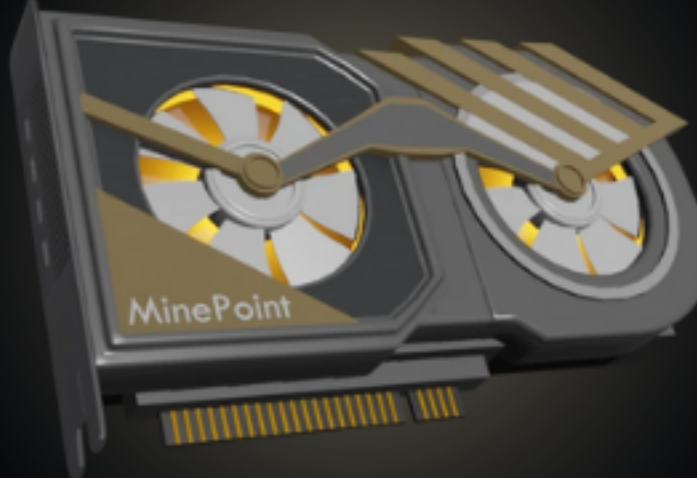

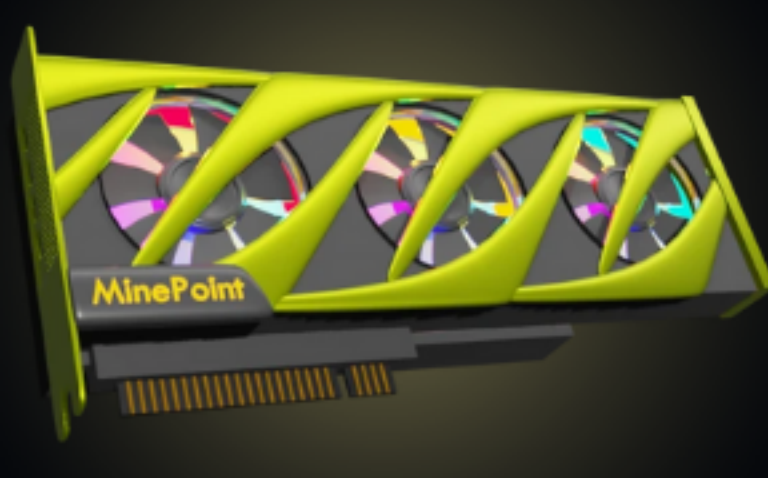

4. Leaderboard and Rewards
   - At the end of each cycle, a leaderboard is formed from the most active users.
   - Bounty rewards are given to the top 20 participants, which stimulates competition and boosts program effectiveness.

Miners and Earnings

By connecting to data centers, our cloud miners mine BTC in the same way as physical miners.

⚡ 0.5 TH	Starter miner
Cost	$10
Pool Payout	$0.12
Maintenance	$0.02
Net Reward	$0.1

⚡ 2.5 TH	Basic miner
Cost	$50
Pool Payout	$0.66
Maintenance	$0.11
Net Reward	$0.55

⚡ 5 TH	Titan miner
Cost	$100
Pool Payout	$1.47
Maintenance	$0.24
Net Reward	$1.23

⚡ 12.5 TH	Top miner
Cost	$250
Pool Payout	$4.08
Maintenance	$0.68
Net Reward	$3.4

⚡ 25 TH	UltraMax miner
Cost	$500
Pool Payout	$9.00
Maintenance	$1.50
Net Reward	$7.5

*Calculations are based on 24 hours of miner operation.

Marketplace

The MinePoint ecosystem provides not only quick access to the world of mining but also a quick exit from it. At any time, you can sell your miner on the MinePoint marketplace.

To sell your miner on our platform:

1

Go to the "My Miners" section and click on "Sell Miner".

2

Set your desired price. Please note that an additional 20% fee applies. However, 5% of this fee is covered by the new buyer.

For example:
You set the price for the miner at $500.
On the marketplace, the price for a new buyer will be $425.
After a successful sale, you will receive $400, and the $25 fee will be covered by the buyer.

You will receive the funds from the sale as soon as someone buys it.

In the meantime, this miner will remain in your possession, continuing to mine BTC for you.
