EARN BTC REWARDS DAILY WITH CLOUD MINERS

About Us

MinePoint partners with leading service providers to offer a reliable infrastructure for Bitcoin mining. We've simplified access to high-yield mining equipment for both individuals and businesses, ensuring a stable income.

Thanks to our advanced infrastructure and expertise, we've launched cloud miners that make mining accessible, efficient, and profitable for everyone — regardless of technical knowledge or financial resources.

Our trusted partners provide MinePoint with secure data center infrastructure to power our cloud miners. All partners are fully verified and utilize high-performance equipment, ensuring mining stability and efficiency.

Our company is officially registered in England and Wales, confirming our legal status and commitment to transparent business practices.

Registration Number: **16300460**

**CERTIFICATE OF INCORPORATION
OF A

Referral Program & Cashback

How does the referral program work? **3-level reward system**

You earn a percentage from the purchases made by the users you invited:

- 5% from purchases made by 1st-level referrals (users you invited directly)

- 2% from purchases made by 2nd-level referrals (users invited by your referrals)

- 1% from purchases made by 3rd-level referrals (referrals of your 2nd-level referrals)
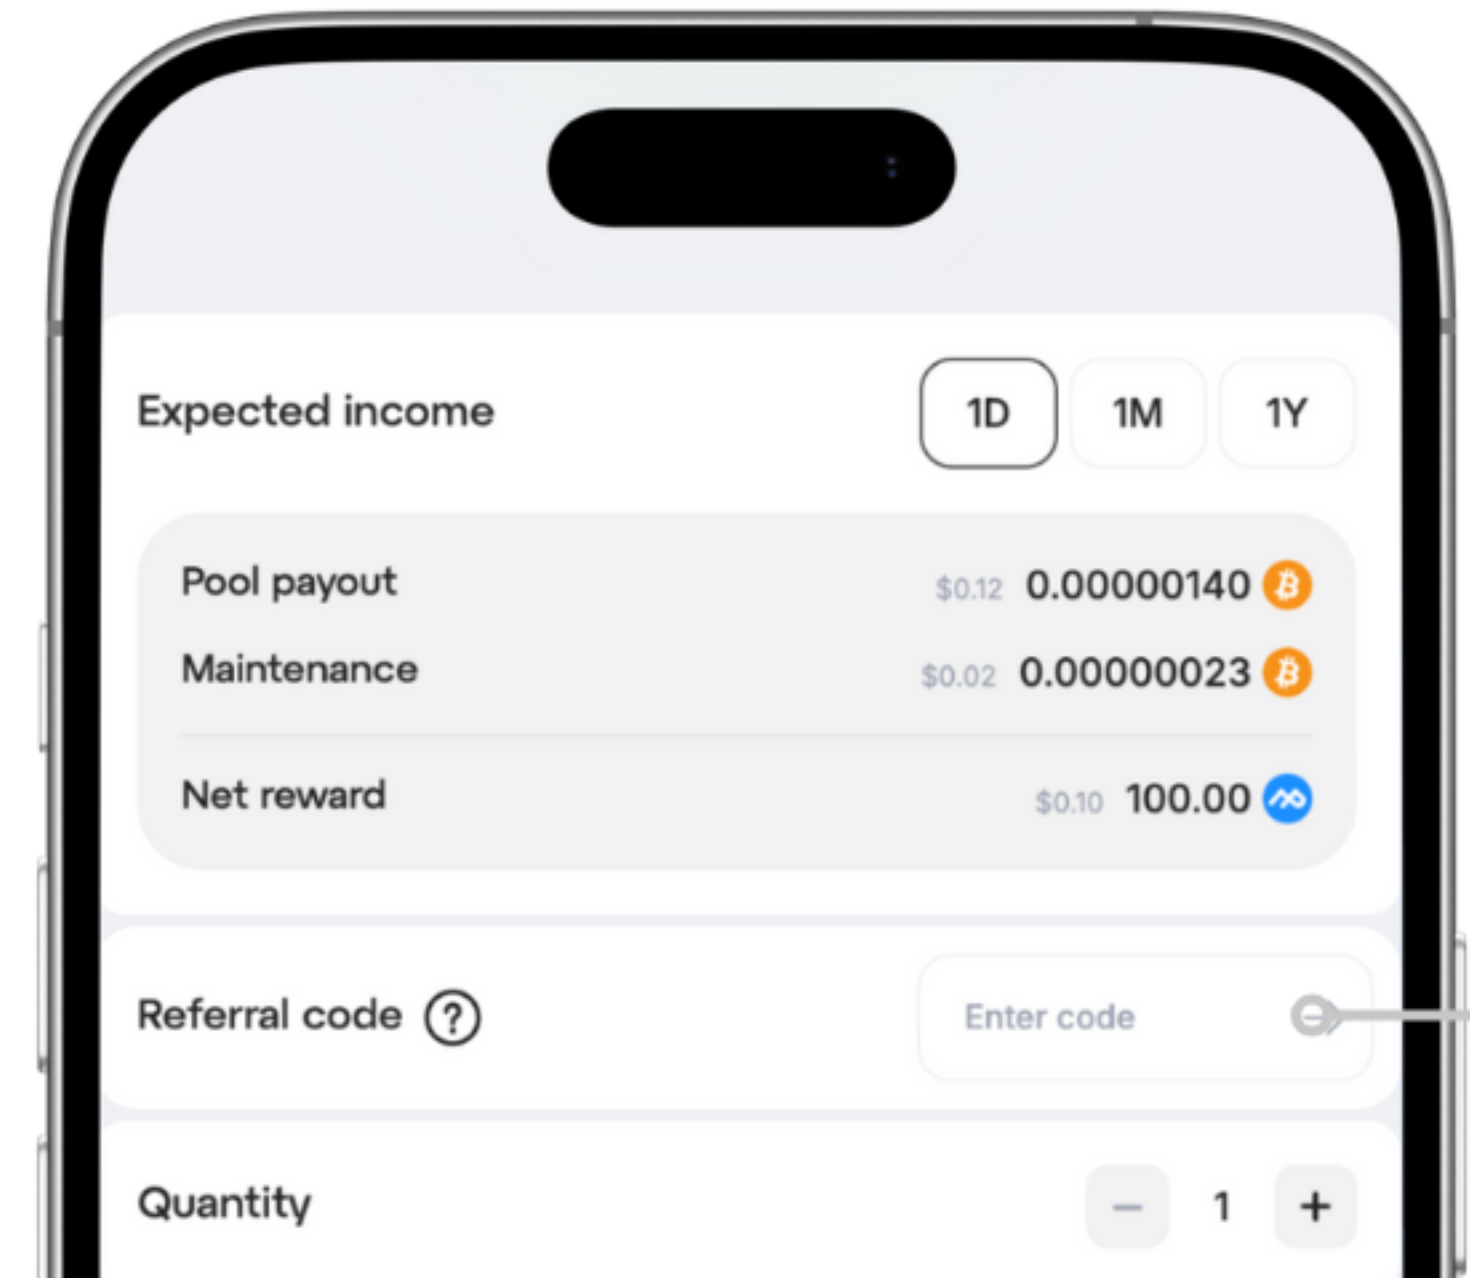

Cashback for your referrals:

Each user you invite receives 5% cashback on their first miner purchase if they enter your referral code in the special field at checkout.

Special input field for referral code

Invitation / Rewards

Invite friends

Friends will receive **5% cashback** for the first miner purchase. And you will receive **5% royalty** from all their purchases. Additionally:

- 2% from purchases of level 2 friends (friends of your friends)
- 1% from purchases of level 3 friends (friends of your friends at the next level)

Bounty Program

The Bounty Program is an effective way to attract users and increase engagement through completing tasks. Here's how it works:

1. Tasks and Stars
   - Users complete promotional tasks (such as subscriptions, reposts, registrations, etc.).
   - For each completed task, they earn stars, building up their activity within the system.
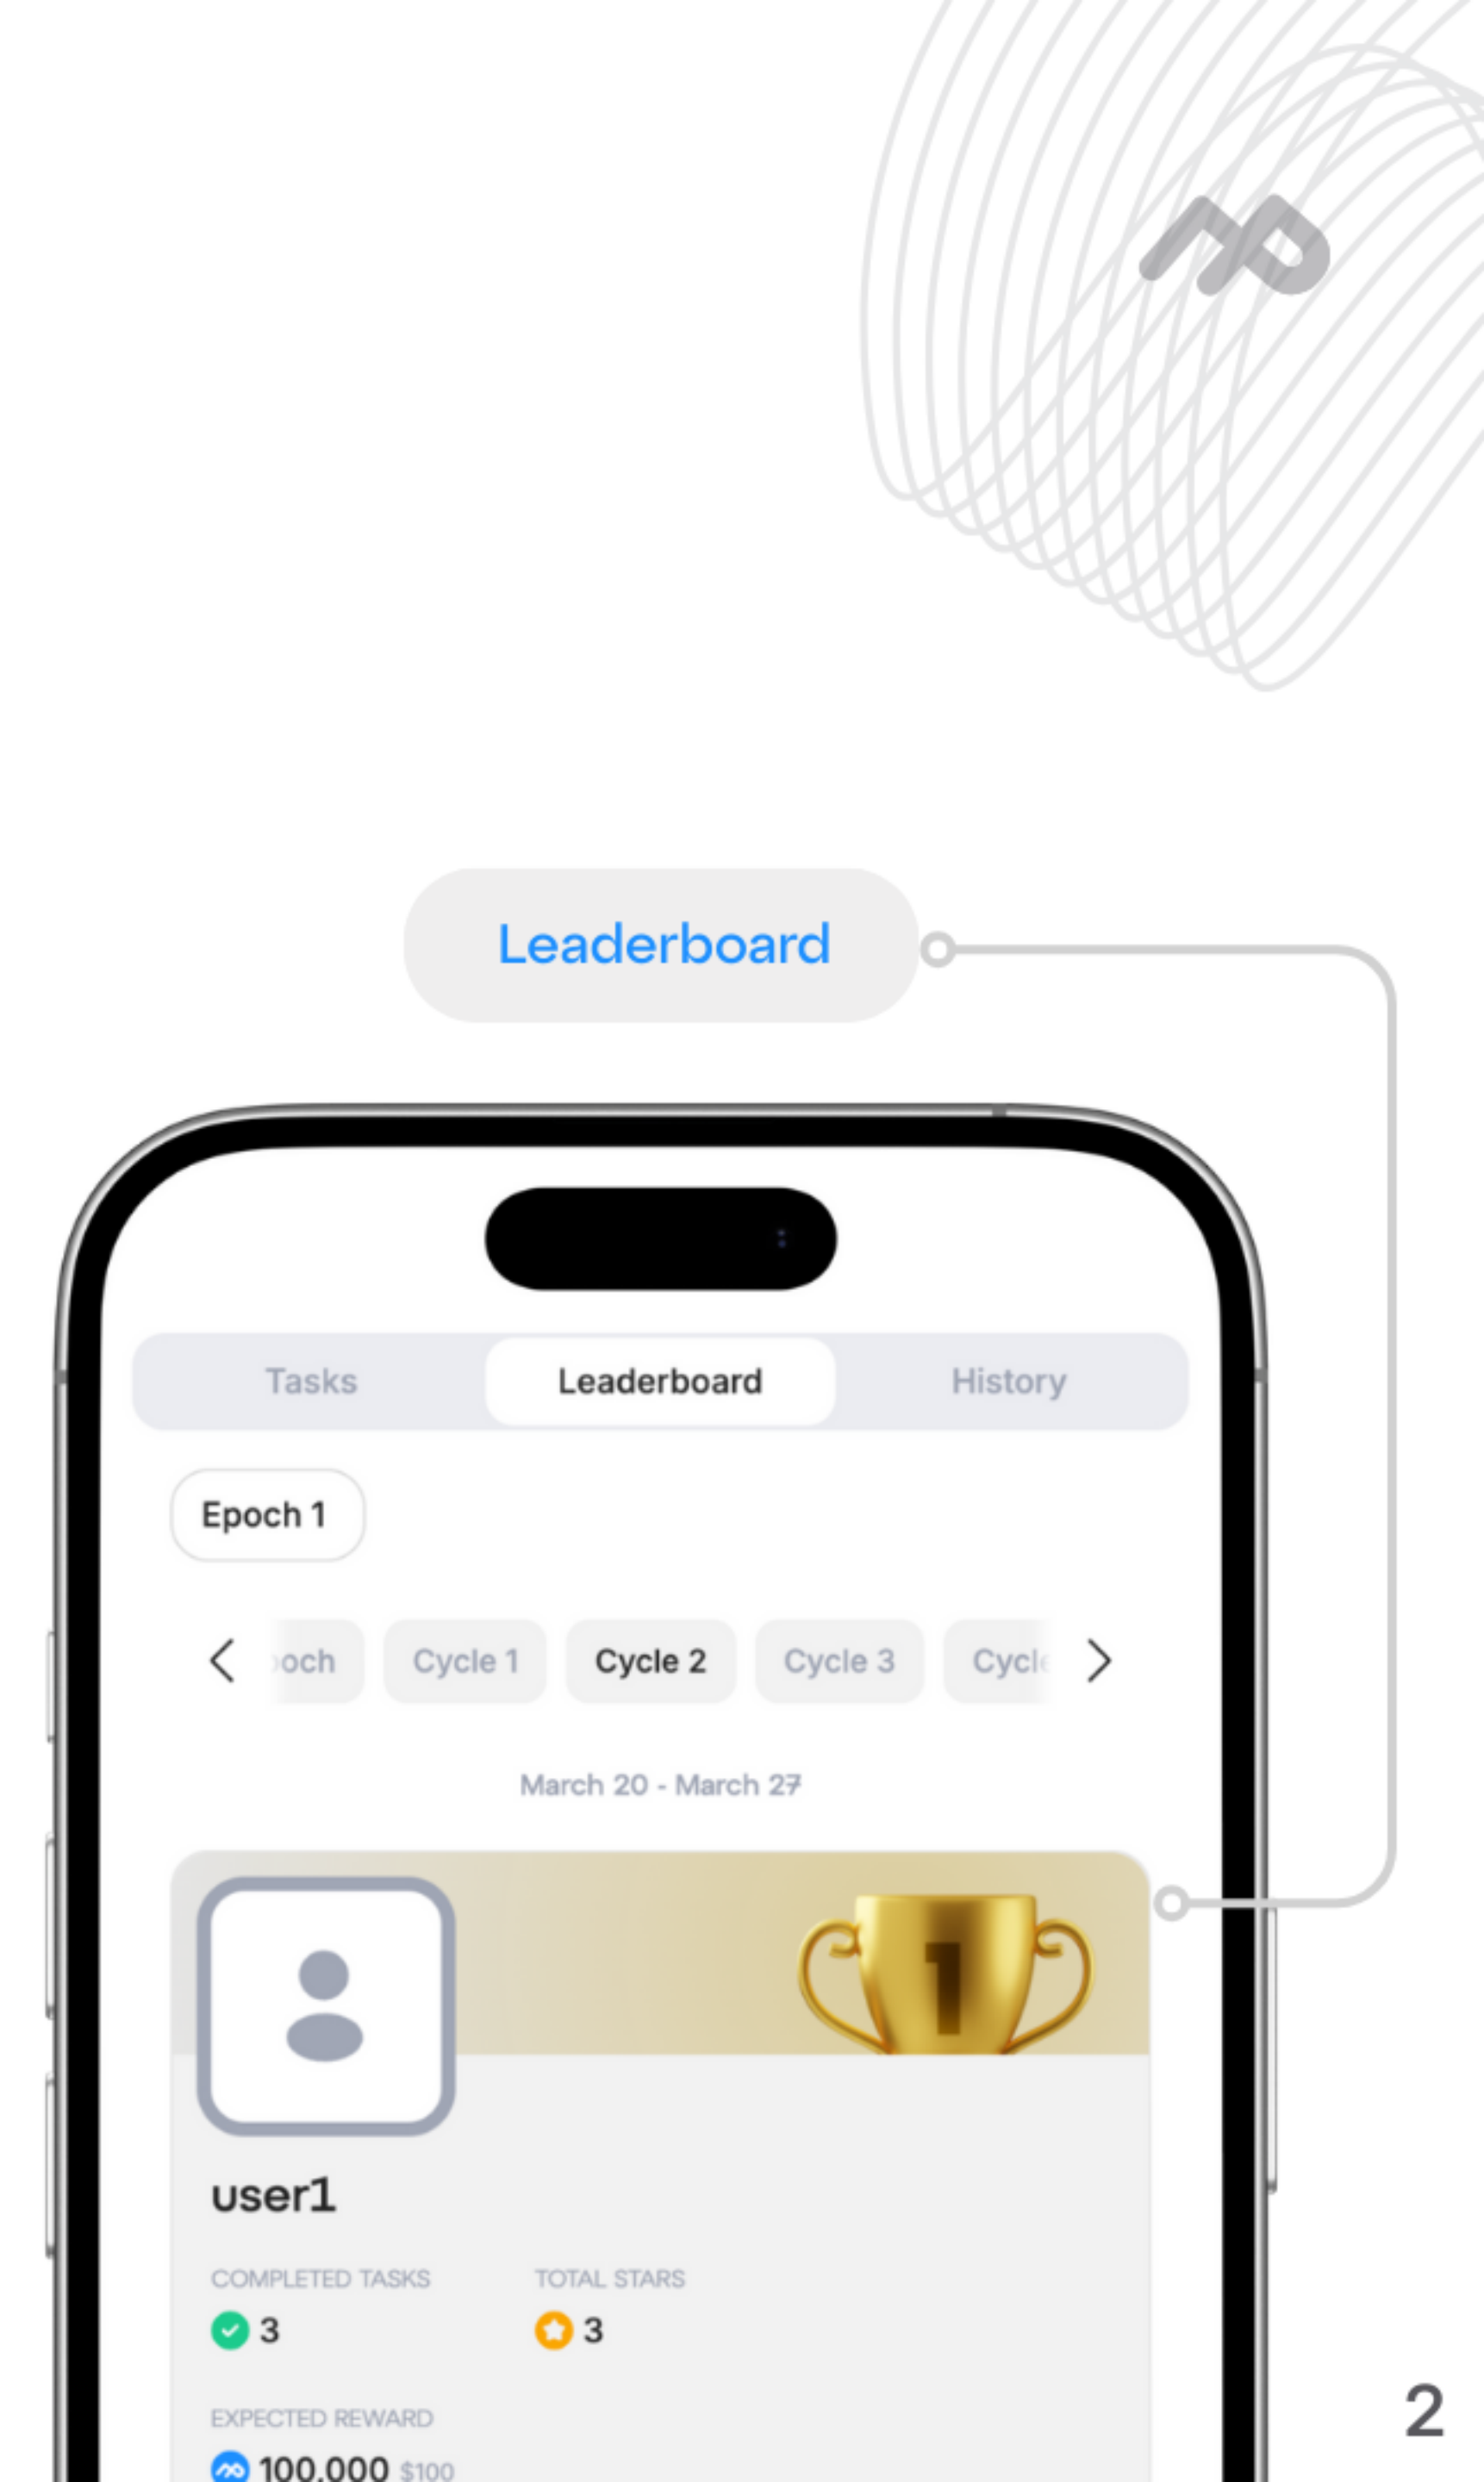

2. Cycles and Epochs
   - The program consists of 10 cycles within one epoch.
   - In each cycle, users are offered a new set of tasks.
   - The more tasks completed, the greater the reward.

3. Reward Growth
   - Rewards grow with each cycle depending on overall activity.
   - This encourages users to stay engaged in the program throughout the entire epoch.
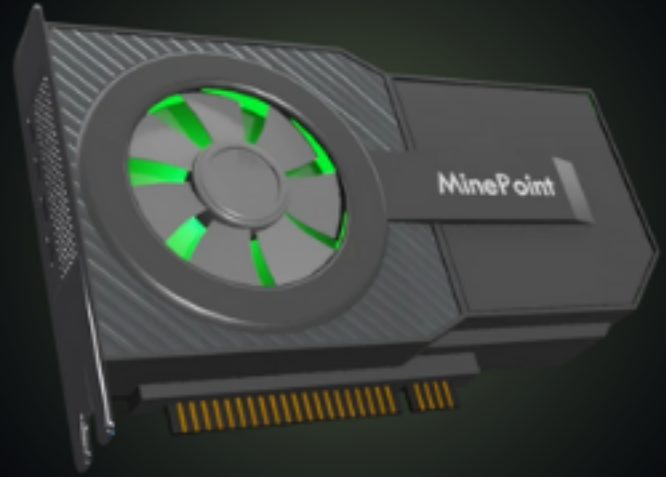

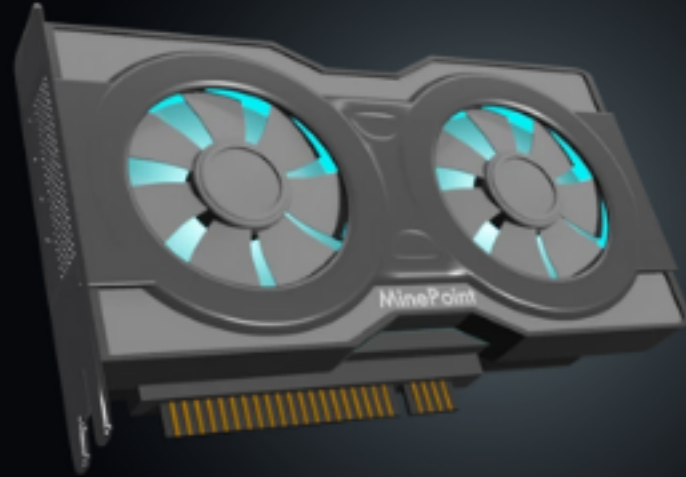

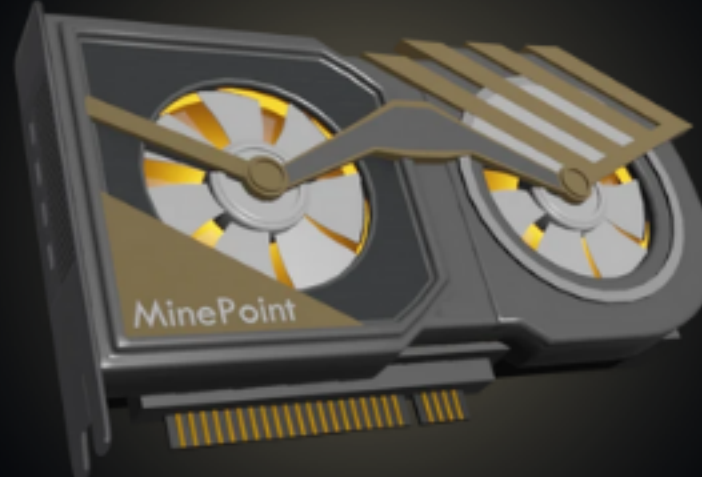

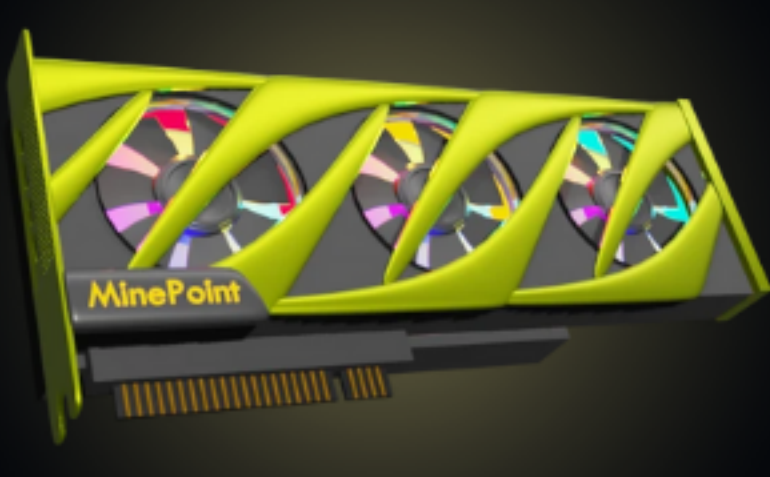

4. Leaderboard and Rewards
   - At the end of each cycle, a leaderboard is created featuring the most active users.
   - The top 20 participants receive bounty rewards, which encourages competition and boosts the program's effectiveness

Miners & Earnings

By connecting to data centers, our cloud miners mine BTC
just like real, physical miners do.

⚡ 0.5 TH	Starter miner
	1%
Cost	$10
Pool Payout	$0.12
Maintenance	$0.02
Net Reward	$0.1

⚡ 2.5 TH	Basic miner
	1.1%
Cost	$50
Pool Payout	$0.66
Maintenance	$0.11
Net Reward	$0.55

⚡ 5 TH	Titan miner
	1.23%
Cost	$100
Pool Payout	$1.47
Maintenance	$0.24
Net Reward	$1.23

⚡ 12.5 TH	Top miner
	1.36%
Cost	$250
Pool Payout	$4.08
Maintenance	$0.68
Net Reward	$3.4

⚡ 25 TH	UltraMax miner
	1.5%
Cost	$500
Pool Payout	$9.00
Maintenance	$1.50
Net Reward	$7.5

*Calculations are based on 24 hours of miner operation

Marketplace

The MinePoint ecosystem provides not only a quick entry into the world of mining but also an equally fast exit. At any time, you can sell your miner on the MinePoint marketplace.

To sell your miner on our platform:

1

Go to the "My Miners" section and click "Sell Miner"

2

Set your desired price. Please note that a *20% fee is applied on top of the price. Out of this, 5% is covered by the new buyer. You will receive the funds from the sale as soon as someone purchases your miner.

For example:

You set the price of your miner at $500.
On the marketplace, the price shown to the new buyer will be $425.
After a successful sale, you will receive $400, and the $25 fee will be covered by the buyer.

In the meantime, the miner will remain in your possession, continuing to mine BTC for you.
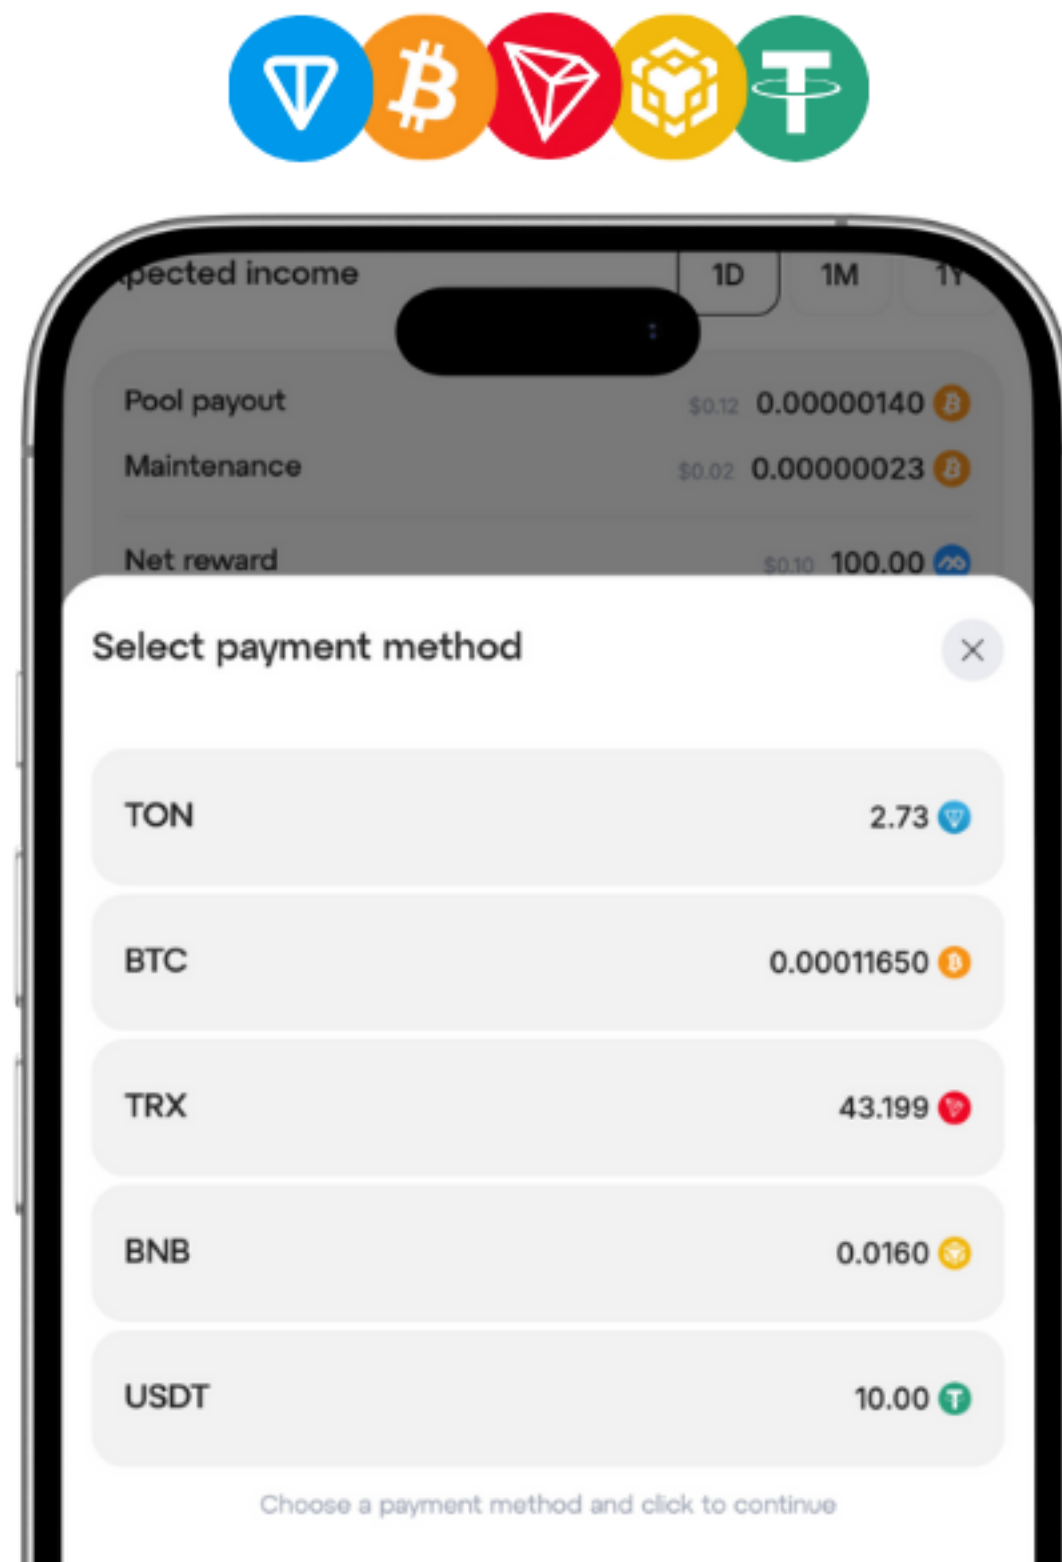

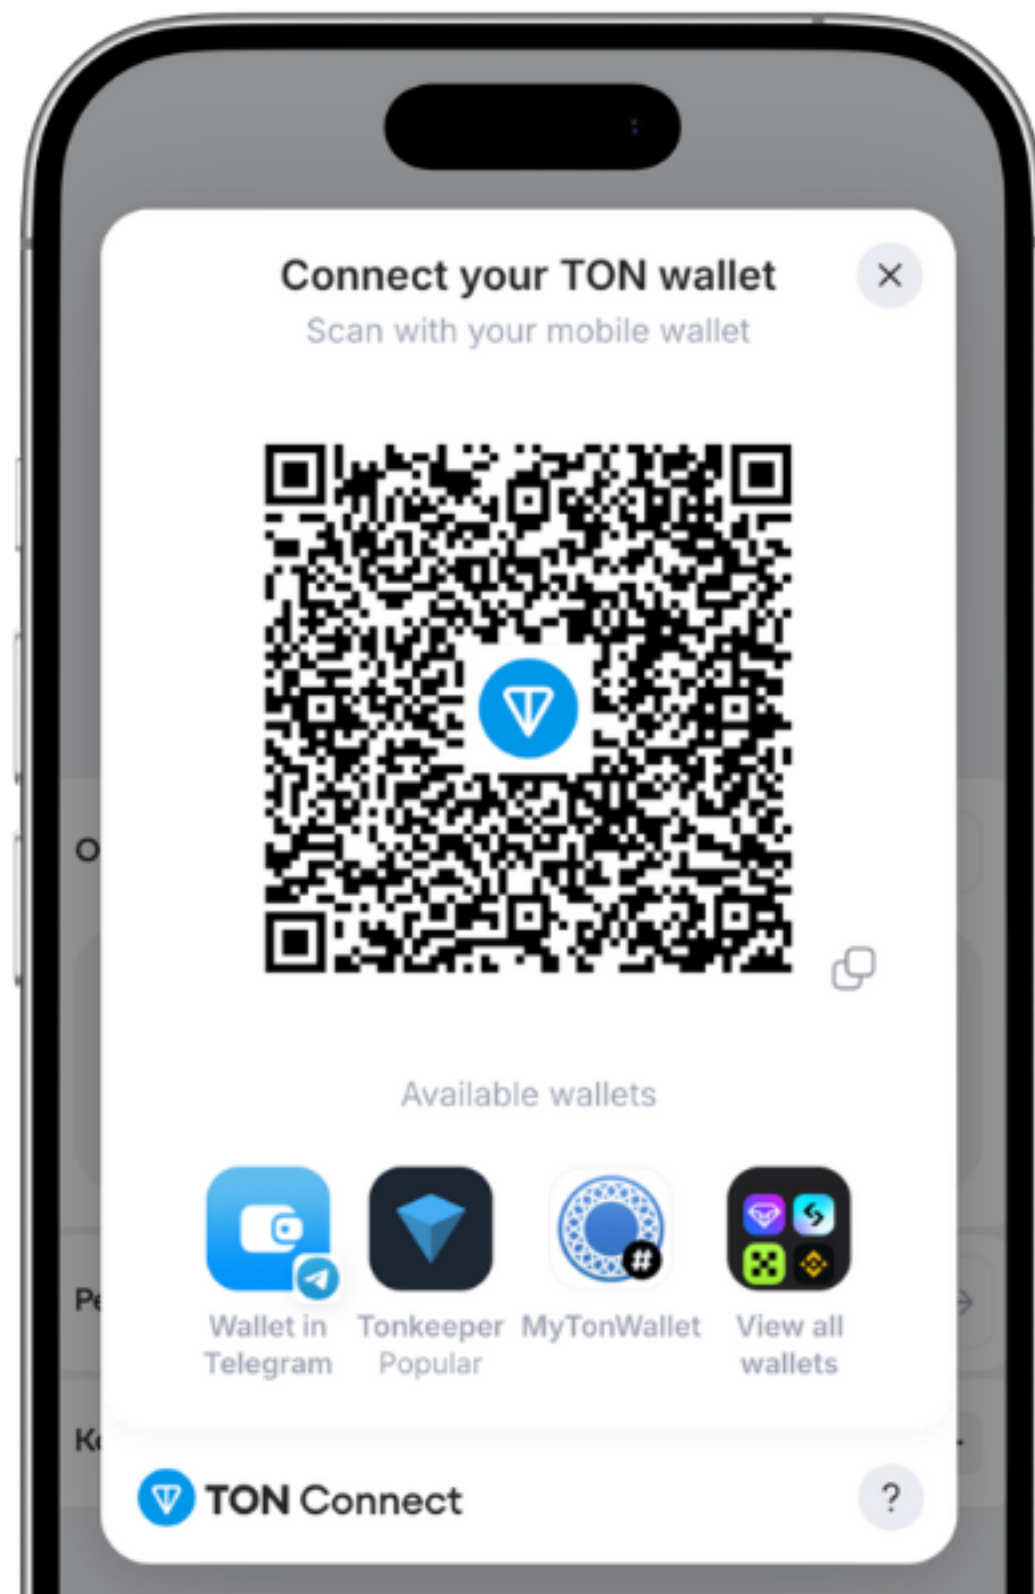

Payment and Withdrawal Methods

Connecting via TON Connect SDK is not a mandatory step for using the platform. It is only required if you need integration with the TON blockchain for transactions or other blockchain-related operations. If such functionality is not needed, you can skip the TON Connect SDK connection.

Payment Methods: TON Connect, Tron, Bitcoin, Binance coin, Tether
- TRC-20
- BEP-20
- TON

Withdrawal Methods: TON, Tether TON

Minimum Withdrawal: $1
Fee: $0.05
